

MEDITAP (M)

Váha (g/m ²) - Weight (g/m ²)	EN 12127	± 5 %	652
Výška (cm) - Width (cm)	-----	± 2 %	145
Otěruvzdornost (cykli) Abrasion resistance (rubs)	UNI ISO 5470-2 (Martindale)		200.000
Složení - Composition	100% Polyvinylchlorid		
Všechny certifikáty - All certificates available			
EN 1021-1 EN 1021-2 Hygienic certificate for healthcare Test for disinfection and sterilization Öko – Tex Standard 100 ISO 10993-5 ISO 10993-10 EN 71-3 EN 1021-1 EN 1021-2 available at antares.cz			
Čištění a údržba potahů – Cleaning and washing			
Maintenance in healthcare - routine maintenance Do not expose the material to direct sunlight. Late removal of dirt reduces cleaning success. The shade and pattern of the fabric may differ slightly from the swatch for technological reasons. MEDITAP MATERIAL SHEET Tested maintenance with chlorine-based disinfectants (Medicarine 1‰ solutions, HAZ 5‰ to 1‰, Milton 1‰, Tristel disinfectant spray, cleaning wipes containing isopropanol 70%). A minor change in color and hardness of the material may occur. Dirt can be wiped off with a soft cloth soaked in a neutral soapy solution. Absorb liquid dirt with a paper towel. Do not use chemical solvents
